## State Governor visits Northern Midlands

The Governor of Tasmania, His Excellency Peter Underwood and his wife Frances paid a visit to the Northern Midlands Municipality on Tuesday 24th February. The visit was part of a program of official visits to all the Tasmanian municipal councils, the Governor stating in an address that he had already visited eight councils in the state. During the day the Governor visited Evandale Primary School and Cressy District High School. Invited members of the community were able to meet the Governor and his wife at a reception held at the Happy Chef in Longford. Governor Underwood was welcomed by Mayor Kim Polley, and is pictured above with his wife Frances.

### Community digs deep for bushfire victims

On Wednesday 11th of February the Campbell Town volunteer Fire Brigade had a meeting to discuss the bushfire appeal. It was agreed to have a fundraiser on Friday 13th in Valentines Park. A donation of \$1000 from the brigade was made to start the appeal. Then the Brigade put the challenge out to the community to match or better the \$1000. Five Firefighters attended the appeal and raised \$4903.65.

On behalf of the Campbell Town Brigade thank you so much to the local community and the travelling public for their wonderful generosity towards the appeal. All up \$5903.65 has been donated to the "Premiers Bushfire Relief Fund". Pictured above are Warren Barr (Appeal Co-ordinator) Mel Rowlands, David Oakley and Ben Foot.

The Northern Midlands community has responded in a most generous way to the tragedy in Victoria. More details on pages 4 & 5.

Longford Volunteer Fire Brigade Chief Michael Armstrong, pictured left, is at the time of printing, spending a period of time in Victoria helping with the fire effort there. Michael says that the experience he hopes to gain whilst fire fighting in Victoria will be able to be put to practical use on his return to Tasmania, for the benefit of the local community.

Professional fire fighter Robert Nimmo, of Longford has just returned from a week in Victoria helping with fire fighting efforts.
